PROJECTS

News For You | github.com/ctolnai/newsforyou | blooming-mesa-06853.herokuapp.com/

- Summary: News For You is an application designed for a new form of media that is more tailored to the user than any other news website. This website instead of just browsing the latest news you can also get the option to select which category of news you would like to view compared to other ones.
- Role: Back End Designer
- Tools: HTML, CSS, JavaScript, JSX, React, Bootstrap, MongoDB, NPM, Heroku, Bcrypt

ParkSmart | github.com/Kimberly-Rodriguez/ParkSmart | parksmart2021.herokuapp.com/

- Summary: ParkSmart is an application for people who live, work and play in high dentistry neighborhoods where parking is extremely limited and most if not all parking options are relegated to street parking.
- Role: Back End Designer
- Tools: HTML, CSS, JavaScript, Bootstrap, Sequelize, Bcrypt, Express, Handlebars, NPM

EXPERIENCE

Production Coordinator, Quality Manager, Safety Manager
Belco Packaging Systems, Inc.

2020 – 2021
Monrovia, CA

Created, scheduled and released work orders to the production floor. Worked with Assembly Leads to prioritize and maintain production schedule; Maintained knowledge of machine capacity and developed solutions for efficient utilization; Worked with the Engineering Department Leads to create and update BOM's. Monitored all completed production goods to meet Belco quality assurance standards. Coordinated and managed IIPP and all other safety training.

Production Manager
Dinan Corporation

2016 – 2020
Morgan Hill, CA

Managed all aspects of the manufacturing and production process which includes planning, scheduling, purchasing, receiving, welding and machining, QC, kitting, and shipping; Maintained IIPP and HMBP along with implementing monthly safety trainings and audits; Facilitated weekly MRB meetings to track trends and instances of quality issues; Managed operating expenses along with capex spending to keep

department within planned budget and allocations; Created and implements production schedule based off of forecasted sales; Sent weekly reports to VP of Finance and General Manager; Worked with Engineering Manager to process Engineering Change Orders.

Production Manager

2013 – 2016

Harris and Bruno International

Roseville, CA

Managed Production Control and Planning, Manufacturing, Shipping and Receiving, and Inventory Control; Planned and scheduled the manufacturing of parts for a Production department containing conventional machining, CNC machining, fabrication and welding work centers; Facilitated daily WIP meetings to maintain priorities and communication between Sales, Service, Engineering, Purchasing, Marketing and Assembly; Established and led weekly MRB meetings to track and analyze quality trends in both manufactured and purchased parts; In partnership with the Quality Manager, developed KPI's and metrics to track Anilox roll processing; Expanded the inventory cage and created kanban cards with forecasted ROP/ROQ's to accommodate two new product lines with over 2,000 distinct manufactured and purchased parts; 5S Team mentor. Worked in cross-functional teams to maintain on time deliveries, track product quality, and process engineering change orders.
